Details of an open space casual naturism activity

To enable **NAG** to compile credible UK data on public attitudes to casual open space naturism we welcome your contribution. You may have been involved in such an activity, either alone or with other naturists. Through collecting the data **NAG** will be able to use it in support of a number of its projects, particularly those, which require authorities to have a better understanding that naturism is not harmful. You may be aware that **NAG** works with other naturist bodies and with individual naturists.

By taking just a few minutes to complete this Form you will be helping the naturist cause in the UK. The more comprehensive your answers are then the more helpful it will be. Please use a separate Form for each separate 'public encounter' even if on the same day. Your own confidentiality when making the comments will be maintained by **NAG**, although to enable the data that you give to be credible it will require you to sign the Declaration at the end of the Form.
